

Curriculum vitae

Professor Claudio Giulio di Prisco

Personal Information

Name: Claudio Giulio di Prisco

Nationality: Italian

Current position: Full Professor of Soil Mechanics and Slope Stability
Politecnico di Milano, Italy

Education

- 1993:** Ph.D. in Geotechnical Engineering, Politecnico di Milano, Milano, Italy. Discussion of the Ph.D thesis in Rome. Dissertation title: "The anisotropy of sands: experimental investigation and mathematical modeling" (in Italian).
- 1989:** Admitted to the Vth cycle of Doctorate in Geotechnical Engineering
- 1989:** M.Sc. in Civil Engineering. Politecnico di Milano, Milano, Italy. Dissertation title: "A constitutive model of the anisotropic mechanical behaviour of sands". Graduated with full marks and summa cum laude.
- 1983:** High School Degree (Liceo Classico) Liceo Ginnasio G. Parini

Academic appointment and employment history

- 2006:** Full Professor of Geotechnics at Politecnico di Milano
- 2000:** Associate Professor of Geotechnics at Politecnico di Milano
- 1997-1999:** Temporary Professor of Geotechnics at Politecnico di Milano
- 1996:** Temporary professor of Slope Stability at Politecnico di Milano
- 1992:** Assistant professor of Geotechnics at Politecnico di Milano (Department of Structural Engineering)

International Research activities

- 1990:** Visiting young researcher, for an eight months period, at the Laboratory 3S-R, Université J. Fourier, Grenoble, (France). Experimental research under the supervision of Prof. F. Darve and Prof. J. Lanier
- 1994:** Visiting researcher at Imperial College of London (UK) (1 month)

Institutional charges

- Member of the Board of the Doctoral School of the Structural Engineering Department of Politecnico di Milano
- Member of the Board of the Doctoral School in Geotechnical Engineering of Politecnico di Torino.
- Responsible for ERASMUS students for the Civil, Environmental and Territorial School of Politecnico di Milano

Main research fields

- Study of the anisotropy of the mechanical behaviour of sands
- Experimental and theoretical analysis of the phenomenon of static liquefaction of loose sands
- Theoretical analysis of the unstable response of non-associated elasto-plastic strain-hardening materials
- Time dependence of the mechanical behaviour of soils
- Constitutive modeling of granular materials by taking into account the granular temperature state variable
- Experimental and theoretical study of the mechanical behavior of lightweight granular materials
- Study of the mechanical behavior of cemented materials
- Numerical analysis of the phenomenon of localization in geotechnical materials by means of non-local approaches
- Compaction bands in porous natural materials: experimental, numerical and theoretical issues
- Numerical and theoretical analysis of the response of natural slopes under seismic actions**
- Analysis of the interaction between soil and buried pipelines along landslide**
- Design for piles for landslide prevention**
- Design of superficial anchored nets for the stabilization of natural slopes**
- Impacts of rock boulders on sand strata**
- Design of sheltering structures (artificial tunnels)**
- Experimental and theoretical analysis of the mechanical behaviour of shallow foundations under cyclic/dynamic actions
- Analyses and design of the hydro-mechanical response of geo-encased columns.**
- Design of fiber-glass inclusions for the reinforcement of tunnel faces**
- Design of piled earth embankments**

Participation to and management of funded research projects

- 2013-21:** Project RELUIS: "Seismic landslides" - "Study of the propagation of landslides".
- 2018-2021:** Project CARIPLO DARFLIS: "Propagation of fast landslides"
- 2018-2021:** Project CARIPLO ROCKHORIZON: "Design of rockfall protection structures"
- 2013-15:** Project Prin-MIUR '13: "The landslide risk mitigation by means of sustainable interventions"
- 2012-2014:** PON project- "Landslides risk mitigation project" PON.01
- 2010-13:** Project RELUIS: "Legislative proposal: seismic local amplification effects" - "Study of the seismic response of shallow foundations on complex stratigraphy."
- 2009-12:** EU Project Accident ID 7629770: Interreg Italia-Svizzera Misura 2.2 - Programma Operativo di Cooperazione transfrontaliera Italia Svizzera 2007-2013: "Tunnels subjected to Fire and Blast"
- 2009-11:** EU Safeland: Living with landslide risk in Europe - subcontractor of UNISA
- 2008-10:** Project Prin-MIUR'07: "Theoretical-numerical and experimental analysis of the triggering mechanisms of landslides in low-density granular materials"
- 2005-08:** Project RELUIS: Progetto Esecutivo 2005-2008 - Accordo di Programma Quadro DPC-Reluis – Task 4 - "Development of displacement approaches for the design and assessment of the vulnerability of shallow foundations"
- 2004-07:** EU LESSLOSS - Risk Mitigation for Earthquakes and Landslides - subcontractor of UNIMIB
- 2004-06:** Project FIRB-MIUR 04: Multidisciplinary approach for the assessment of the vulnerability of large landslides

-2002-05: CEE Project DIGA: Degradation and Instabilities in Geomaterials with application to hazard mitigation

-2002-04: Project Prin-MIUR'02: "Modelling of pipeline-landslide interaction"

The most recent geotechnical consultant activity

Topic	Client
Seismic response of piled raft foundations of existing highway bridges	Tecne
Interaction between tunnel excavation and piled foundations of an existing bridge (Salerno)	Technital
Member of the awarding committee of the works for the construction of the fast train line Brescia-Verona	Cepav2
Numerical analyses of shallow tunnels in rock masses (Val Camonica Line)	Ferrovie Nord
Technical consultant in many legal proceedings. The most recent concerns Rigopiano event)	Italian Courts
Design of mitigation measures against the buoyancy of pipes in liquefiable soils	Saipem
Pipelines passing throughout creeping landslides: optimization of monitoring systems	Snam Retegas
Design of wind turbine shallow footings	Enel
Geotechnical problems of foundations of solar panels	Enel
Design of wire meshes to stabilize earth slopes	Maccaferri
Stabilization of Tavernola landslide	Lombardy Territorial Entity
Numerical simulations for the design of railway earth-embankments	Cepav2
Numerical assessment of settlements of MOSE (Venice)	Technital (Italian private engineering company)
Optimization of an innovative nailing system (TECCO)	Geobrugg (Switzerland)
Numerical analysis of an innovative deep anchoring system	TFEG
Use of geosynthetics in the design of underwater retaining structures	Sicily (Italy) territorial Institution
Risk assessment of coastal cliffs (Polignano)	Puglia (Italy) territorial Institution
Risk assessment of abandoned caves	Emilia Romagna (Italy) territorial Institution
Design of anchored retaining structures	Graftech (Italian Industry)
Stabilization of artificial embankments by means of piles	Ferrovie Nord (Italian railways company)
Design of pipes along unstable slopes	Snam-Retegas
Design of reinforced railways embankments	TENAX
Mechanical behavior of tunnel faces in saturated cohesive soils	Rocksoil
Stability of artificial dams	Provincia di Varese
Design of sheltering structures	Veneto Strade
Use of lightweight materials in the construction of road embankments	Laterlite
Use of lightweight materials in the design of tunnels	Laterlite
Stability of reinforced slopes in Val Pola (Lombardia-Italy)	Castelli company
Design of large disposal pools in Romania (Iasi)	EMIT company
Stabilizations of Fantoni landslide	Studio Cancelli
Design of GEC	Tencate s.p.a.
Risk assessment of the slope of an abandoned mine in Costamasnaga (LC)	Holcim s.p.a.

Design of drainage pipes along an artificial dam in Lurate Caccivio (VA)	F.lli Mara s.r.l.
Numerical modeling of the excavations works of an underground parking structure	Lombardi-Reico

Membership and Affiliations

- Vice-president of the Italian Chapter of AGI-IGS (International Geosynthetics Society)
- 2005-2011:** Director of the International Association Alert Geomaterials <http://alertgeomaterials.eu/>
- Member of the TC 207 "Soil-Structure Interaction and Retaining Walls" of the ISSMGE
- Component of PhD juries in France (Lyon and Grenoble) and Italy (Milan, Turin, Rome, Padua, Catania, Genoa)
- Committee member for associate professor(HDR)in France(Metz and Lyon), Czech Republic (Prague)and Italy(Milan)

Membership to Editorial Boards of International Journals

Member of the Editorial Board of International Journal of Solids and Structures

Member of the Editorial Board of "European Journal of Environmental and civil Engineering"

Member of the Editorial Board of "Engineering Geology"

Member of the Editorial Board of "Rivista Italiana di Geotecnica"

Member of the Editorial Board of "Geotechnique" from 2014 to 2017

Editor of books

di Prisco C.G., Muir Wood D. (2014). Mechanical Behaviour of Soils Under Environmentally-induced Cyclic Loads: 534
Handbook on Tunnels and Underground Works (2022). Volume 1: Concept–Basic Principles of Design, DOI 10.1201
/9781003256175-1

Invited presentations to Conferences and International Advanced Schools

-Co-organizer of the 22th ALERT-Geometrials Graduate School "Prevention and protection against hazards" (with Y. Malecot), Aussois, France October 2011

-Co-organizer of CISM Advanced Course "Mechanical Behaviour of Soils under Environmentally Induced Cyclic Loads" (with D. M. Wood), Udine, Italy, June 2009

- Lecturer, 1th ALERT Olek Zienkiewicz Doctoral School “Computational Geomechanics” (with M. Pastor). Madrid, Spain, June 2009
- Lecturer, NATO Advanced Research Workshop “Cyclic and dynamic mechanical behaviour of shallow foundations on granular deposits”, Borovets, Bulgaria, from 30th of August to 3rd of September 2008
- Panelist at Seismic Engineering Conf. MERCEA08: “Dynamic Mechanical Response of Inclined Dry Granular Sand Strata”, Reggio Calabria, Italy, July 2008.
- Panelist at XXIII Convegno Nazionale di Geotecnica, Previsione e Controllo del Comportamento delle Opere: “Criteri di scelta nella modellazione costitutiva dei terreni”, Padova-Abano Terme, Italy, May 2007.
- Co-organizer of the 15th ALERT-Geometerials Graduate School “Geodynamics and Cyclic Modelling” (with L. Daudeville), Aussois, France, October 2003
